**3A PIRATE.** Gino, 3A2MF, informs OPDX that a station operating on CW signing **3A/I1YRL** between **August 1-22nd** was a **pirate**. Gino has talked to Luc, I1YRL, and it was confirmed that Luc was not in Monaco during this period. Do not QSL because cards will be returned to sender.

**5R, MADAGASCAR.** John, SM0DJZ, reports that from **October 21-31st**, he will visit Ake, **5R8FU**, and hopes to be able to operate as second operator from his home station. He will try to activate 160 and 80 meters, if they can find ways of erecting an large enough pool supporting antennas for these bands. Also, he will be active on WARC bands and maybe 6 meters and RTTY. John states that they will enter the **CQWW DX SSB Contest** as a Multi/Single, but on a small scale! (At least 5R8 and Zone 39 will be activated!!). He provides the "Sunrise and Sunset" for 5R8 around October 25th, which is approx: 0215/1457z. An online QSO-look-up will be available after his return in November. Please check the Web page:

<http://dx.qsl.net/logs/> Contacts for 5R8FU are already now available for all his activity up to July 12th. John hopes he will be able to make some photos available on some WEB-pages afterwards. QSL via SM0DJZ, Jan "John" Hallenberg, Siriusgatan 106, SE-195 55 Mersta, Sweden

**7Q, MALAWI.** Eli, **7Q7CE**, has been very active over the past weekend on 10 meters. Check around 28495 kHz after 1315z and as late as 1430z Meanwhile, look for Harry, **7Q7HB**, to be active from Club Makokola on the south west shore of **Lake Malawi** as of Sunday, **October 3rd**. By the way, this is the same QTH as 7Q7CE. Harry's activity will happen when time and work permits him to operate. QSL via G0IAS (DIRECT only).

**9U, BURUNDI.** Ragge "Gus" Jagero, SM5DIC (aka 5X1D, 9Q5TE, 9X/SM5DIC), informed OPDX by E-mail that he is now active as **9U5D** and will stay there **up to Christmas**. He states that he received his new license last week by the Dept. of Ministry of Defense (ARCT) who now gives out LEGAL licenses. Gus reports that his license's serial number is 001! Gus will be active on all HF bands including 6 meters. Also, Leif, SM0BFJ, Gus's QSL Manager, has sent

along some additional information. He states Gus is in **Bujumbura** and has a station at his office which is in another part of the city. Gus states that he will be active on all bands, but unfortunately, 40, 80 and 160 meters may be difficult because of the 1800-0500z curfew. However, Gus has promised to stay over some nights at the office in order to work some lower bands. His equipment is an IC-706, and the antenna is an inverted L with a total length of 41m. On 6 meters he will use a yagi. QSL via SM0BFJ (Direct only, no bureau) at: Leif Hammarstrom, Birger Jarlsgatan 38, SE-114 29 Stockholm, SWEDEN. By the way, Gus has forwarded all his documentation to the ARRL, who apparently accepted his documentation.

**CO9, CUBA.** Look for CO2WF, CM2KL and others to participate in the **CQWW SSB Contest (October 30-31st)** as **CO9BCC** from **Boca Ciega beach**. Operations will be 160-10 meters. QSL via VE3EH. Check out the CO9BCC Web site at:

<http://www.qsl.net/ve2eh/co9bcc.htm> ADDED NOTE: Pierre, VE2EH, states that you will find the latest results of the 1999 ARRL International DX Contest, plus photos, check out the Web page: <http://www.qsl.net/ve2eh/co9.htm>

**CP6, BOLIVIA.** Mats, LU9AY, will go to CP6-land to work the **CQWW SSB Contest** from **October 27th through November 7th**. He will be on the air as **CP6/LU9AY** on SSB and CW. Activity will be mainly CW, and he will try to hang around the WARC bands. Look for him before and after the contest. QSL via NU4N. Mats states, "Please no more homecall cards.. or LU bureau.. because I am not replying those.. all should go to NU4N."

**D44, CAPE VERDE ISLANDS.** "The 59(9) DXReport" reports that Angelo, D44BS, has informed them that Julio, **D44BC**, had a **heart attack** and is in critical condition. OPDX wishes Julio a complete recovery.

**EAST TIMOR.** Peter, 5X1T/ON6TT, reports that one member of his team, Brian 'Joe' Poole, G3MRC (5X1P), is in East Timor and Darwin installing their stations. He knows that Brian has a VK8 license already, but forgot his callsign. However, it will probably take a while before East Timor will be qualified as a new country. It must conform to one of the 3 criteria for a DXCC entity.

**GB2, GIBRALTAR.** Gary, W5FI, informs OPDX that he will be active as **ZB2/W5FI** now **through October 10th**. Although this is a business trip for Gary and business will come first, he anticipates being on during the openings to NA, SA, JA, and Europe almost every day. His emphasis will be on RTTY, CW, and SSB on 80-10 meters. QSL via W5FI.

**HB0, LICHENSTEIN.** Helmut, DF7ZS, reports that they will be active from here and participate in the **CQWW DX SSB Contest** from **October 30-31st**. The callsign is not known yet, as they are trying to get a short callsign from the HB0 guys. The worst case would be **HB0/DL0TS**. QSL info is via DF7ZS. They are planning to operate mainly on 40 meters operating split (looking for DX at night) and a second station on 10/15/20 meters. The team is going to test the 40 meters band setup during the **WAG** (Worked all Germany) Contest, **October 16-17th**, using the **DF2000** callsign.
